Jimmie Sullivan knows that something is wrong and admits it. If figures tell the truth, then Richmond is surely fielding in good form, for a team percentage of 951 is excellent at this time of the year, when the chances are comparatively few in number, and consequently every misplay counts just so much more in reducing averages. On the other hand, a team batting average of 295 is remarkable, and especially remarkable because of the fact that the team having that average did not during its heaviest batting week, win a majority of its games.

When a team is both batting and fielding well, and leading the league in the batting end of the game it needs no wise man to figure the weak, nees. Without desiring to do any injustice to the Richmond pitching staff, the statement must be made that the members thereof, if they have the goods, have not been delivering it up to the present time. With a team bitting behind him a pitcher should hot have trouble in winning sames, provided, of course, that he delivers a proper brand of foolers.

There have been few games in which good pitching would not have won. With the exception of the game in Rosnolie, which was gathered in by the Magle Clity contingent, 1 to 0, and in which Drapper allowed but four hits, not a contest can be noted in which effective pitching, or even ordinary pitching, would not have stuck the game in the won column for Richmond.

TO MEET TO-NIGHT

The monthly meeting of the Richmond Automobile Club will be held tonight at \$30 o'clock in the club rooms
of that organization. One of the principal matters which will be considered
is the campaign for the funds needed
to complete the highway from Richmond to Gordonsville and the highwafrom Richmond to Old Point. It is
understood that a considerable part of
the \$10,000 needed has been raised, but
not all, and unless those who have
been soliciting funds have secured
enough to make up the difference between the amount already given and
the amount needed, a plan will be
adopted which will bring forward the
necessary contributions in short order.
Several other matters are to be considered, and it is expected that this
will be one of the most important
meetings of the current year.
